Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing and indentation used throughout the code.	Yes	Proper indentation maintained.
2	Proper File Structure	Project files and folders are logically organized.	Yes	Files are arranged in separate folders.
3	Meaningful Variable Names	Variable names clearly indicate their purpose.	Yes	Descriptive variable names are used.
4	Function / Method Names	Functions have meaningful and descriptive names.	Yes	Function names reflect their tasks.
5	Code Comments	Comments explain important sections of the code.	Partial	Basic comments are provided; more can be added.
6	Modular Design	Code is divided into reusable functions/modules.	Yes	Separate modules are used for different tasks.
7	No Redundant Code	Duplicate or unnecessary code is avoided.	Yes	No major duplicate code found.
8	Error Handling	Exceptions and invalid inputs are handled properly.	Partial	Basic error handling is implemented; can be improved.

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Data Preprocessing	Python	Dataset Preparation	Hlgh
2	Model Training	Python,Scikit-Learn	ML model creation	Hlgh
3	Prediction Function	Python	Crop prediction	Hlgh
4	Flask Application	Flask	Web interface	Medium
5	HTML Templates	HTML/CSS	User Interface	Medium

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Well organized project structure
Readability	5	Easy to understand and maintain
Reusability	4	Most modules can be reused
Documentation / Comments	4	Comments are adequate but can be improved
Overall Score	4.5/5	Good code quality with minor improvements possible
